Disney waves

The Class of 2025

After school students who had previously been recognized as a student of the month earlier this school year were treated to a very special Disney experience. These students were able to experience Disneyland park through the eyes of a physicist. They were able to explore how the energies of light and sound come together to create unforgettable attraction experiences throughout the park as part of the Disney Youth Education Series. The Energy and Waves Physics Lab 101 course was an interactive learning experience they'll never forget.

The entire school took part in the first ever Castle Rock Commitment to Higher Education Ceremony on Wednesday morning. 5th graders took time in class and at home to research a career and a college. They were able to discover how much schooling was required for their dream career as well as the annual salary. Every 5th grader was announced on stage and pledged their commitment to higher education by signing their name on the Commitment to Higher Education poster. The class of 2025 poster hangs proudly in the front office for everyone to see. Thank you to 5th grade teachers and the rest of the Castle Rock team. A special thanks to our esteemed guests for their positive message and Mrs. Pena for working

with me to plan this amazing event.

Healthy Foods

Announcements:

- * May 9th: Teacher Appreciation BBQ
- * May 10th: Mother's Day Tea
- * May 11th: Student of the Month
- * May 14th: CAASPP Rally

"Don't be afraid,
be amazing"

Over 50 students took a trip to the local grocery store this week to learn about healthy food choices. In partnership with the Tulare County Office of Education students from all grade levels took a healthy foods tour and learned about the unhealthy contents of soda, potato chips and other items. The tour also included discussions about healthy food alternatives. Thanks to TCOE, Mikey Flores and his team as well as the local grocery store owner for putting this wonderful hands on experience together for our students.

This is your friendly neighborhood Principal Mr. Trevino.

Have a great weekend!
